

DSBA - Beginner

Session Agenda:

- Getting started with Python

Important points to note:

- Please ensure that Anaconda Navigator is installed on your system before the session. This will help you follow along with the mentor on the Hands-On part of the session.
- Please refer to the following videos on instructions for downloading Anaconda Navigator:
 - For Windows: <https://bit.ly/2T4wr62>
 - For MacOS: https://www.youtube.com/watch?v=iPsOCj_wKvY
- Please download the session notebooks from Olympus
- Please login 5 minutes before the start of the session.
- Please feel free to raise your questions at the end of each section.

Structure of the Session:

Duration	Topic
5 min	Explanation of the session structure
30 min	Getting familiar with Jupyter Notebook IDE
40 min	Introduction to Data Types and Variables in Python
15 min	Performing Arithmetic Operations
25 min	Discussion on Conditional Operators and Statements
5 min	Summary of the session
